Pupil premium strategy statement 2022-23

This statement details our school's use of pupil premium (and recovery premium for the 2022-23 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	HARRISON PRIMARY
Number of pupils in school	630
Proportion (%) of pupil premium eligible pupils	101 (16%)
Academic year or years covered by this strategy	2021/22 to 2024/2025
Date this statement was published	1 st December 2022
Date on which it will be reviewed	20 th July 2023
Statement authorised by	SARA GMITROWICZ, Executive Head teacher
Pupil premium lead	JANE BOWDEN Deputy Head teacher/SENCo
Governor / Trustee lead	ENIKO KOCSIS, Chair of Learning & Teaching Committee

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£135,590 (estimate)
Recovery premium funding allocation this academic year	£ 12,470
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£148,060
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

Our intention is that all children, irrespective of their backgrounds or the challenges they face, make excellent progress and achieve high attainment across all subjects.

Our intention is to ensure high quality provision for all pupils, including those who are disadvantaged. Our pupil premium strategy is based on strong educational evidence and forms part of our broader strategic improvement and implementation cycle which will improve provision for **all** pupils. We expect all children to receive high quality teaching and classroom learning support in order to maximise opportunities for success, and provide additional support through targeted provision where necessary. Our approach is responsive to diagnosis of challenges and individual needs.

We will identify and consider the challenges faced by more vulnerable pupils in order to ensure success; evidence suggests that this will also benefit all pupils, regardless of whether they are disadvantaged or not.

Our strategy is also integral to whole school plans for education recovery; following two years of disrupted education 'disadvantaged' at Harrison means any child who is known to be not on track to reach age related expectations of fulfilling their potential or is vulnerable i.e. those with behaviour or emotional difficulties rather than just those with socio-economic disadvantage.

We have a tiered approach to effective pupil premium funding, in line with EEF evidence, and target spending across 3 areas, with a particular focus on high quality teaching to ensure equity of access for children in areas of challenge:

- a rigorous focus on high quality teaching and learning for all pupils, including those who are disadvantaged, ensures pupils are supported to make excellent progress and meet expected outcomes
- **targeted academic support** additional support is provided through targeted provision, and
- whole school strategies we believe that there is no single strategy or intervention which provides a complete solution.

Our vision is that **all** children become happy, successful 'lifelong learners with open minds'; we have high expectations for all children. Our five Values; Collaboration, Honesty, Equality, Respect and Responsibility, underpin our collective responsibility and approach to tackling disadvantage for all children.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Assessments, observations, and discussions with pupils indicate underdeveloped communication, oral language skills and vocabulary gaps among some disadvantaged pupils. These are evident from Reception through to KS2 and in general, are more prevalent among our disadvantaged pupils than their peers.
2	Assessments, observations, and discussions with pupils suggest some disadvantaged pupils have greater difficulties with phonics than their peers. This negatively impacts their development as readers.
3	Assessments, observations, and discussions with pupils suggest some disadvan- taged pupils require more support for development of social and emotional lit- eracy, positive learning behaviours and good mental health and wellbeing. Turbulent family situations can impact on some children's physical and emo- tional wellbeing.
4	Baseline assessment on entry to Year R in the last 2 years suggests that some disadvantaged pupils arrive below age-related expectations compared to other pupils.
5	Assessment of non-academic issues that impact success, such as disadvantaged pupils' access to enrichment activities, suggests this has been exacerbated by school closures.
6	Analysis of attendance data over the past two years indicates that attendance of some disadvantaged pupils has been between 1% and 2% lower than other children.
7	Analysis of internal and external data (where available) indicates that attain- ment of some disadvantaged pupils is below that of other children in reading, writing and mathematics.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved (see 'Outcomes below)

Intended outcome	Success criteria			
Improved communication, oral language skills and vocabulary gaps among disad- vantaged pupils.	Assessments, observations, and discussions with pupils indicate significantly improved communication, oral language skills and vocabulary gaps among disadvantaged pupils. This is evident when triangulated with sources of evidence such as Tapestry,			

Improved phonics outcomes among disadvantaged pupils. High standards of social and emotional literacy, positive learning behaviours and good mental health and wellbeing.	book scrutiny, buddying, pupil engagement in lessons and ongoing formative assessment. Phonic Screening Check outcomes are significantly improved at end Year 1 and end Year among disadvantaged pupils. This is evident when triangulated with sources of evidence such as Tapestry, book scrutiny, buddying, pupil engagement in lessons and ongoing formative assessment (see 'Outcomes below). Assessments, observations, and discussions with pupils indicate significantly improved social and emotional literacy, positive learning behaviours and good mental health and wellbeing among disadvantaged pupils. This is evident when triangulated with sources of evidence such as ELSA, FEIPS analysis, Tapestry, book scrutiny, buddying, pupil engagement in lessons and ongoing formative assessment (see 'Outcomes below).
Improve outcomes at end of EYFS related to communication, language and literacy, personal, social and emotional development and physical development.	Assessments, observations, and discussions with pupils indicate significantly improved outcomes at end of EYFS among disadvantaged pupils (see 'Outcomes below).
Improved access for disadvantaged pupils, and participation in, to enrichment activities.	Assessments, observations, and discussions with pupils indicate significantly improved access to enrichment activities for disadvantaged pupils (see 'Outcomes below).
Achieve and sustain excellence attendance for all pupils, including disadvantaged pupils.	 Sustained high attendance from 2024/25 demonstrated by: the overall absence rate for all pupils being no more than 3%, and the attendance gap between disadvantaged pupils and their non-disadvantaged peers being reduced by 1%. the percentage of all pupils who are persistently absent being below 1% and the figure among disadvantaged pupils being no more than 1% lower than their peers.
Improved reading outcomes among disadvantaged pupils.	KS2 reading outcomes in 2024/25 show that the majority of disadvantaged pupils meet the expected standard or make progress related to starting points (see 'Outcomes below).
Improved writing outcomes among disadvantaged pupils.	KS2 writing outcomes in 2024/25 show that the majority of disadvantaged pupils meet the expected standard or make progress related to starting points (see 'Outcomes below).
Improved mathematics outcomes among disadvantaged pupils.	KS2 mathematics outcomes in 2024/25 show that the majority of disadvantaged pupils meet the expected standard or make progress related to starting points (see 'Outcomes below).

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £10,124

Activity	Evidence that supports this approach	Challenge number(s) addressed
Ensure all staff have a consistent understanding of high quality instruction, dialogic talk, scaffolding and effective feedback.	There is a strong evidence base that suggests that high quality instruction, including dialogic activi- ties such as high-quality classroom discussion and teacher feedback, are inexpensive to implement with high impacts on attainment and language development. EEF toolkit states that developing effective feedback can lead to up to additional 6 months progress. <u>EEF Effective Feedback</u>	1,4
Ensure all staff are supported to be excellent practitioners who can consolidate understanding and extend vocabulary.	There is a strong evidence base that suggestsoral language interventions improves outcomesfor all pupils.Oral language interventions Toolkit Strand Education Endowment Foundation EEF	1,4
Purchase of a <u>DfE validated</u> <u>Systematic Synthetic Phonics</u> <u>programme</u> to secure stronger phonics teaching for all pupils.	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: <u>Phonics Toolkit Strand Education Endowment</u> <u>Foundation EEF</u>	2,4,7
Ensure staff support pupils to develop strategies to support memory and metacognition.	There is a strong evidence base that suggests that high quality instruction, including dialogic activi- ties such as high-quality classroom discussion and teacher feedback, are inexpensive to implement with high impacts on attainment and language development. EEF toolkit states that developing effective feedback can lead to up to additional 6 months progress. <u>EEF Self-regulation and metacognition</u>	1,4
Improve the quality of social and emotional (SEL) learning. SEL ap- proaches will be embedded into routine educational practices and	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers):	3,4

supported by professional devel- opment and training for staff.	EEF Social and Emotional Learning.pdf(educati onendowmentfoundation.org.uk)	
Purchase standardised diagnostic assessment. Ensure staff are trained to ensure effective use of assessment.	Standardised tests can provide reliable insightsinto the specific strengths and weaknesses ofeach pupil to help ensure they receive the correctadditional support through interventions orteacher instruction:Standardised tests Assessing and MonitoringPupil Progress Education EndowmentFoundation EEF	1,4,7
Develop whole school Mastery approach for mathematics teaching. We will fund teacher release time to embed key elements of guidance in school and to access Maths Hub resources and CPD (including Teaching for Mastery and Mastery of Number KS1 training).	The DfE non-statutory guidance has been pro- duced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, draw- ing on evidence-based approaches: <u>Maths_guidance_KS_1_and_2.pdf (publish- ing.service.gov.uk)</u> The EEF guidance is based on a range of the best available evidence: <u>Improving Mathematics in Key Stages 2 and 3</u>	7

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £18,495

Activity	Evidence that supports this approach	Challenge number(s) addressed
Ensure catch-up teaching and targeted intervention lead to improved pupil outcomes and progress in communication and language.	Oral language interventions can have a positiveimpact on pupils' language skills. Approachesthat focus on speaking, listening and acombination of the two show positive impactson attainment:OrallanguageinterventionsEEF(educationendowmentfoundation.org.uk)	1
Provide additional phonics sessions targeted at disadvantaged pupils who require further phonics support.	Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks: <u>Phonics Toolkit Strand Education Endowment</u> <u>Foundation EEF</u>	2
Provide intervention for catch up related to development of pupils' SEL skills. Fund training for ELSA, PATHS, (now TALA) and Lego Therapy.	There is extensive evidence associating childhood social and emotional skills with improved out- comes at school and in later life <u>EEF Social and Emotional Learning.pdf(educa- tionendowmentfoundation.org.uk)</u>	3,4

Purchase of a programme to improve listening, narrative and vocabulary skills for disadvantaged pupils who have relatively low spoken language skills.	Oral language interventions can have a positive impact on pupils' language skills. Approaches that focus on speaking, listening and a combination of the two show positive impacts on attainment: <u>Oral language interventions EEF</u> (educationendowmentfoundation.org.uk)	1,4
---	--	-----

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £121,325

Activity	Evidence that supports this approach	Challenge number(s) addressed
Whole staff training on behaviour management and anti-bullying approaches with the aim of developing our school ethos and improving behaviour across school.	Both targeted interventions and universal approaches can have positive overall effects: <u>Behaviour interventions EEF</u> (educationendowmentfoundation.org.uk)	3,4,6
Support extra-curricular enhancement access.	The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence.	3,5
Support for Services chil- dren through 'Bluey Club'.	There is extensive evidence associating child- hood social and emotional skills with im- proved outcomes at school and in later life.	3,4
Embedding principles of good practice set out in the DfE's <u>Improving</u> <u>School Attendance</u> advice.	The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence.	3,6
This will involve training and release time for staff to develop and implement new procedures and appointing new (NOW TALA)/Family Links team members to establish improved links with hard to reach families and improve attendance.		
Development of Mental Health and Well-being Lead.	DfE widely recognises that a child's emotional health and wellbeing influences their cognitive development and learning	3,5,7

as well as their physical and social health and their mental wellbeing in adulthood.	
DFE Promoting pupils' mental health and wellbeing	

Outcomes – July 2022

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021-2022 academic year.

Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. *Please see separate pupil premium evaluation report 2020/21 on school website.*

Activity	Evidence that supports this approach	Impact
Whole staff training on consistent understanding of high quality instruction, scaffolding and effective feedback – all staff are supported to be excellent practitioners.	There is a strong evidence base that sug- gests that high quality instruction, including dialogic activities such as high-quality class- room discussion and teacher feedback, are inexpensive to implement with high impacts on attainment and language development. EEF toolkit states that developing effective feedback can lead to up to additional 6 months progress. <u>EEF Effective Feedback</u>	High quality of teaching & learning/shared understanding of effective practice. Prioritisation of teaching of key knowledge, skills and developing pupils' understanding has supported improved pupil attainment over time. Teachers have accurate diagnosis of what has been taught, remembered, forgotten or missed end July 2021. Teachers' excellent subject knowledge has enabled them to make accurate assessments to identify what knowledge,
		skills and understanding needs to be re-taught and to which groups.
Whole staff training on consistent understanding of meeting needs of children who find it difficult to manage their behaviour in the classroom so that all staff are supported to be excellent practitioners.	EEF toolkit states that developing learning behaviours will reduce the need to manage misbehaviour. Equally teachers can provide the conditions for learning behaviours to develop by ensuring pupils can access the curriculum and engage in learning. This can lead to up to additional 7 months progress.	High quality and inclusive teaching, in-class support. Focussed class teacher and teaching assistant support is backed up by short term intervention, and/or additional guided teaching.

EEF toolkit states that mastery learning approaches are effective – up to additional 5 months progress.	Training of Mastery leads completed with Solent Maths Hub
Lead teachers part of Mastery work group.	On-going support from Mastery teachers & maths specialist has supported team to adapt provision.
	All staff have undertaken training from the local Solent Maths Hub in order to improve teacher subject knowledge and improve mathematical practice over time.
EEF toolkit states that improving pupils' behaviour can lead to up to additional 4 months progress. EEF toolkit states that improving pupils' social and emotional skills can lead to up to additional 4 months progress.	Consistently high expectations and understanding of high quality provision has supported pupils to return to the lived daily experience of learning following two periods of remote home learning. Teaching assistants' training has supported them to support and deliver high quality teaching and learning across all classes and improve understanding of adverse childhood experiences and difficulties experienced by pupils related to close closures and attachment. Support for pupils' emotional wellbeing in place through development of positive caring relationships & individual targeted support for more vulnerable families through individual Family Links, a one-to-one online parenting programme. Enhanced training for
	approaches are effective – up to additional 5 months progress. Lead teachers part of Mastery work group. EEF toolkit states that improving pupils' behaviour can lead to up to additional 4 months progress. EEF toolkit states that improving pupils' social and emotional skills can lead to up to

Improve communication and language skills for eligible pupils in EYFS and year 1.	Linked to previous involvement in 'Keep On Talking programme' shown to improve outcomes at end EYFS. EEF toolkit states that small group teaching can lead to up to additional 4 months progress. EEF toolkit states that oral language interventions, particularly in EYFS, can lead to up to additional 6 months progress.	Employment of full-time teaching assistant with speech and language specialism achieved. Screening of targeted pupils in EYFS undertaken by TA with specialism in speech and language. Implementation of Nuffield Early Language Intervention (NELI) in Year R led to good outcomes for five children identified.
Ensure social and emotional support for children and families led to improved pupil social skills, confidence and attitudes to learning.	EEF toolkit states that interventions and small group teaching approaches are effective – up to additional 4 months progress.	High quality and inclusive teaching, in-class support. Focussed class teacher and teaching assistant support is backed up by short term intervention, and/or additional guided teaching. Forensic monitoring and timely intervention secured progress for underachieving pupils to ensure end of key stage expectations are achieved.
Support for individuals' emotional well-being and mental health to address barriers to learning.	EEF toolkit states that interventions and small group teaching approaches are effective – up to additional 4 months progress. EEF toolkit states that improving pupils' behaviour can lead to up to additional 4 months progress. EEF toolkit states that improving pupils' social and emotional skills can lead to up to additional 4 months progress.	Pupils are provided with timely and effective pastoral support through access to Emotional Literacy Support Assistant and (NOW TALA) practitioners. Implementation of specific programmes supported improvements in children's social and emotional competencies. Access to resources and specialist support from Beacon House improved staff's competencies in meeting needs of

		vulnoroble shildren with
