

Y5 Digital Charter

We will use technology safely and appropriately in school.

We will respect the equipment and use it sensibly.

When using the internet, we will:

- not talk to people we don't know,
- keep our personal information to ourselves,
- block and report people who are not being safe or acting responsibly,
- tell an adult if something doesn't feel right,
- we will be kind and treat others how we would want to be treated.
